fuckin stab those motherfuckers
doesn't believe in guns

weakest shit I owe
my families dead

you gotta get up out there and save the world - it ain't about

killing 1,000 goats in the state of oregon

everybody says they love animals...

The dark side
I'm dark Jesus - you think he didn't love his son - knew what they'd do! - even I underestand the gun issue

as long as you're not out
there trying to save the
world then you're a prisoner

remember watching guards cart out rebellious boys during meeting

you let that writer set taste like fucking bleach

why should I let them leave if they just gonna go rape someone
and if they got a gun - power over me
then why should I let them leave -
gonna go kill some animals or shit

why - you got a pen & got a pe

man you're scaring me - I don't eat meat
do you?! *bafflozled* *I leave*

my families dead - brother men raping sisters

why got a pen & got a pen

(Crave up Sunday fast out of (pen) need to be grounded
